

Athena is a Colorado local, born in Denver and raised in Breckenridge. She learned how to ski at a young age and turned her passion into a career as a professional freestyle skier. After retiring from skiing, she began her career in real estate and has been a real estate broker in Denver for over 8 years. In 2017, she encountered a series of health issues, which resulted in being diagnosed with Lyme disease and several autoimmune diseases. Being a patient herself, she understood the impact of 5280 AIR Society to improving the lives of chronically ill children. She is so grateful to work with such an incredible group of individuals to support National Jewish Health and the Morgridge Academy.
